[2] Type "autocad2016\_1" in the start/programs/other option. 1. This brings you to the main menu. 2. Select "Autocad 2016" 3. Go to "Options" 4. From here you can choose between Windows and Windows RT 5. Once you've chosen the version of Autocad you want to use, type "cdkey.bat" 6. This will run the cdkey.bat script from Autodesk Autocad. 7. This script will then ask you for your Autodesk username and password. 8. It will also ask you if you would like to update the cdkey.bat 9. If you choose to update the script, this will download a new key from the Autodesk CD Key website. 10. Once the script has finished, you will be prompted to press a key to register. 11. Your Autocad key will now be registered and you can use Autocad 2016 without worrying about being banned. [3] Place a CD key in your cdkey.bat file so the script can run it.
