This template generates the PEAR 2.x style mosaic plot where horizontal bar is the primary element and vertical bar is the secondary element. The primary element has a gradient color, while the secondary element (items) are displayed in a horizontal bar with a gradient fill. To customize the plot, use the "Specify cell values" dialog in the "Customize plot" section. If you need to add or delete items from the graph, please refer to the "Add/Delete items" dialog in the "Customize plot" section. The relative contribution of natural killer (NK) cells to the natural resistance of normal bone marrow cells to acute lymphoblastic leukemia (ALL) was assessed in this study. Bone marrow cells from 31 children with ALL were tested for their ability to inhibit the growth of leukemic cells in vitro. We found that the bone marrow of almost one third (33%) of the children with ALL lacked the ability to
